

Group: team purjolok

Date: 6/9 2021

Chair: Isabelle

Notetaker: Isabelle

Participants: Isabelle, Hedy, Jakob, Joar

Objectives

- We need to discuss User Stories
- We need to discuss Frame Works
- We need to discuss our working structure

Reports

Joar got started on some user stories.

Discussion items

- User Stories
 - How do we create them?
 - Who will create them?
- Working structure
 - When can we work on the project this week?
 - Are we working in pairs? Which pairs?
- Project
 - What else, except from User Stories, do we need to get the project started?
 - How do we move forward on the project? What is the next step?
 - UML
- Frameworks
 - Which Frame work should we use?
 - Java FX & libgdx?

Outcomes and assignments

Joar will be working on the user stories along with Isabelle.

Hedy + Jakob will start working with IntelliJ, UML.

We have decided to go with libgdx and we'll read more about it this week.

Task/user story is done if all acceptance criteria is fulfilled (should create a list for each)
one branch for each pair.

Wrap up

Next meeting 10/9, one with supervisor and one with only the group.
