

Group: team purjolok

Date: 18/10 2021

Chair: Joar

Notetaker: Jakob

Participants: Isabelle, Hedy, Jakob, Joar, David, Johan

Objectives

Tests

Reports

- Jakob: Line coverage was already over 90% for non-private methods, so Jakob and David waited on doing more until asking the teacher assistant.
- David: Added images for stalemate, instructions, background image into the code. Victory condition on stalemate. Also started working on tests, see comment in Jakob.
- Joar: Fixed tests based on Hedy's refactoring, found game background image, designed instructions to be more clear and good looking.
- Johan: Fixed a bug with main dancer tile and small improvements on the code
- Isabelle: Added a 3rd card to the hand. Fixed GUI. Updated UML and SDD.
- Hedy: Updated trello board with the new tasks, translated all protocols, updated RAD and SDD. Updated the code from the given feedback from peer review.

Discussion items

Tests done?

Pull requests to accept?

Column in trello with misc, anything important there?

Branches to pull?

SDD & RAD done? (kanske finns saker kvar, alla bör läsa igenom)

Lägga till patterns för att vara mer OOP? T.ex. iterator pattern (decided not to do this.

If somebody finds a pattern we already have, please comment in RAD/SDD)

Update github repo's name to Dance Fans?

Double check canvas so we have done everything for the turn-in

If everything is not done, what is the plan for the weekend?

Outcomes and assignments

- Everyone: Read through SDD & RAD, check with course requirements, give comments. Gå igenom sina User stories på [trello](#), checka av acceptance criteria som är avklarade. Också skriva in i RAD, om en user story är klar, skriv Finished ovanför.
- Jakob: fix the last tests and merge with main, try to remove protected stuff
- Joar:
- Johan:
- David: fix the last tests and merge with main, try to remove protected stuff
- Isabelle: Fix UML, integrate group comments of SDD & RAD.
- Hedy: Probably shouldn't have to do anything. PDF this meeting protocol and add to git

Wrap up

Nothing added from last week (it was empty)

Reminder: Self-Evaluation on tuesday

Questions to teacher assistant/supervisor:

100% test coverage?
